## Career Summary

Here you should summarize all your career path. You could write about your interests (it's recommendable to target the company interests), what you have developed, where have you worked at (and on what) or what technologies have you used before. Write as brief as possible. You can also write about what you like to do.

## Education

here goes the education you've had. List only the important information like the example. You could also include scholar exchange.

**Faculty of Architecture, University of Toronto**

*Major in Industrial Design*
